*“Rich media has proven to be one of the **most effective** forms of online advertising currently available.”*

vPresentation is a leading provider of effective sales and marketing solutions that help businesses succeed in today's competitive market.

Despite remarkable technological advances in recent years, many businesses continue to employ costly and inefficient methods of "coldcalling" as well as repetitive, in-person sales presentations as ways to generate sales. The market has become progressively more competitive making it especially difficult for businesses to thrive on old paradigms.

vPresentations are different. They

are powerful communication agents that can cost-effectively communicate with more people in less time and convert more prospects to willing buyers. vPresentations educate your prospects and motivate them to do business with you – all without coldcalling and "pushy" sales tactics.

Our team combines decades of experience in business, sales, marketing, finance, and technology to create high-impact, compelling rich media presentations that help win your audience over.

RICH MEDIA PRESENTATIONS

Using the latest in interactive technology, vPresentations combine creative commentary, stimulating audio and captivating visuals in a web-based environment available to millions of people around the globe. vPresentations tailor your message to any audience, for nearly any purpose, without the need for pricey printed brochures, bland slide shows or ineffective websites. They are great alternatives to traditional and costly sales presentations as well as training and educational programs. Nearly 2 billion people worldwide who have access to the Internet and have installed Flash™ Player can view vPresentations. According to Adobe, Flash Player is installed across more than 97% of Internet-connected desktops and there is a free download option for the other 3%.

EMAIL MARKETING

The vPresentation Email Marketing Services (VEMS) offer the ultimate leverage in the field of sales and marketing. As the perfect compliment to our rich media presentations, VEMS help companies generate a return on their marketing investment via relevant and timely email communications. Our award-winning technology platform allows our clients to develop personalized email campaigns, instantly deliver them to their targeted audiences, and track the activities (open emails, clicks, bounces, unsubscribes and send-to-friend forwards) on an aggregate or individual level. Our tracking and reporting capabilities are top rated and virtually unmatched in the industry. The data tracked on our VEMS platform can be turned into a powerful tool for your sales team.

WEBSITE DESIGN AND HOSTING

vPresentation offers a complete suite of website design and hosting options for every business size and IT need at affordable prices. Our solutions are designed to improve your internal operations, enhance your marketing efforts, and increase your profitability. We offer domain name registration, shared hosting options, virtual hosting options, E-commerce, hosted database solutions, dedicated servers, and more. You can choose from multiple platforms and we support a wide selection of Web applications. Our team will work with you to ensure that the solutions we provide are tailored to meet your needs and power your website with the best hosting solutions available.

WHY VPRESENTATION

A vPresentation is a better, faster, and more cost-effective way to win people over.

Why better? Because vPresentations are powerful communication agents that have no geographical, time, or personnel limits. They can reach and simultaneously communicate your message to people around the world. They educate your prospects, motivating them to do business with you – all without inefficient coldcalling or “pushy” sales tactics!

Why faster? Because vPresentation can electronically deliver compelling presentations to your audience in seconds and minutes, not hours or days. They do the job without the need for time-consuming meetings or costly travel.

Why more cost-effective? Because vPresentation has made the initial investment in creating a proven and repeatable infrastructure. This allows us to provide our clients with customized solutions at just a fraction of the typical development and deployment costs.

**“Rich media click rates average about
5 times higher
than those for non-rich media.”**

PRODUCTION AND DEVELOPMENT

A typical project begins with a free consultation and a detailed “needs” analysis. Then a proposal is prepared, tailored to your specific needs, for your review and approval. Upon acceptance of our proposal:

With your help, we gather the preliminary information regarding your company as well as its products and services, including its value proposition, differentiators, special offerings, and other relevant material such as brochures, photos, videos, advertising copy, etc.

Our team then provides you with a preliminary draft of the script for review and comments. After final revisions of the script are complete and you have chosen your preferred voiceover from our selection, we provide the initial vPresentation storyboard for your review and approval.

Upon final audio recording of the narration, we present you with the first demo of the graphic animations, at which point, you will have the opportunity to make necessary changes prior to the final production of your customized vPresentation. The completed vPresentation files will then be uploaded to our servers where they will be hosted and maintained for your future use.

FEES

Due to the customizable nature of vPresentation products and services, we offer a free price quote on every project. Depending on the level of services required by our clients, our fees range from affordable one-time development fees to ongoing monthly maintenance or usage fees.

vPresentation is wholly owned and operated by Pillarton Corporation (www.pillarton.com), a privately held California corporation.
